On March 29, 2021, Roman Gelevan filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that he suffered Guillain-Barre syndrome (“GBS”) as a result of an influenza (“flu”) vaccine administered on November 4, 2019. Petition at 1. Petitioner further alleges that he received the vaccine in the United States, that his symptoms have continued for more than six months, and that he has not received compensation in the form of an award or settlement for his injuries. Petition at 1, 10. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On February 15, 2022, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at

1. Specifically, Respondent has reviewed the petitioner and medical records, and has concluded that Petitioner has satisfied the criteria set forth in the Vaccine Injury Table and the Qualifications and Aids to Interpretation for flu-vaccine related GBS. *Id.* at 6.

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.
